

**LOKKBOX**  
BACKING UP YOUR BUSINESS

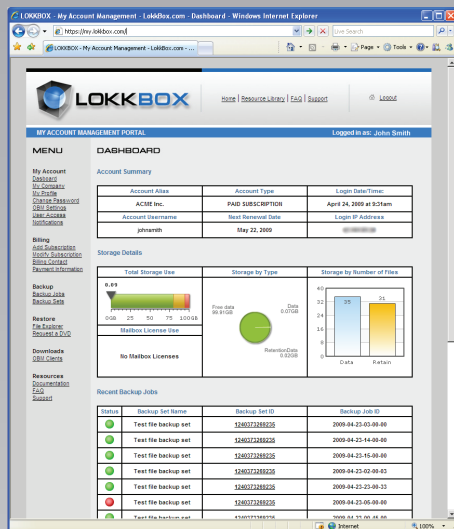

# the simple power of lokkbox online backup

LOKKBOX ONLINE BACKUP MANAGER (OBM) AND THE UNIQUE 'MY LOKKBOX' WEB PORTAL PUTS YOU IN CONTROL OF YOUR BACKUP STRATEGY

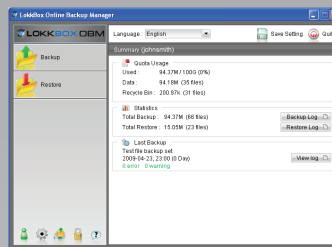

LokkBox was founded by business and technology professionals that understood there had to be a better, more reliable, affordable, and secure way to backup valuable company data using the internet and avoiding costly and unreliable traditional backup solutions. LokkBox Online Backup was born. We invest our resources into a product that is unmatched in features and reliability.

Just like our product, we've designed our pricing to be simple and straight forward. You won't find complicated plans with limited features. Instead, we charge only by the amount of storage space that you need.

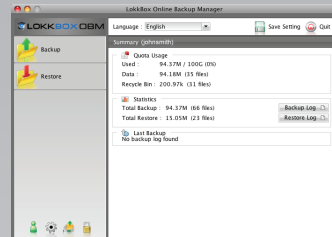

Here's how it works. You decide the amount of storage you need. Each block of storage comes with an account that includes all of our features. You can use your account to backup an unlimited number of hosts. One service, countless features, unlimited hosts.

My LokkBox Web Portal

LokkBox OBM - Windows

LokkBox OBM - Mac

Email notification example

As much as 60% of corporate data resides unprotected on PC desktops and laptops.

(IDC analyst Cynthia Doyle, Business Continuity)

- Engineering, Design and Architects
- Transportation companies
- Legal Practices
- Real Estate Agents
- Insurance Brokers...

...and any business that has mission critical data

a backup solution that is

# easy to use

**AVOID COMMON REASONS FOR DATA LOSS SUCH AS HARDWARE FAILURE, SOFTWARE CORRUPTION AND HUMAN ERROR**

It's simple! Sign up for service, install the LokkBox client on your servers, desktops, and laptops and you are ready. You control what you'd like to backup, how often you'd like to back it up, and how long you want to retain the backup. That's it - LokkBox OBM will take care of the rest.

Your data is compressed, encrypted, and securely transported to our servers. Then, we replicate that data to secondary servers to make sure your information is always at your fingertips. You can go one step further and have our product backup to local storage in your network at the same time it transmits data to our facilities.

# now you can easily backup everything securely

**LOKKBOX OBM CAN EFFORTLESSLY BACKUP ALL OF YOUR DATA USING INNOVATIVE FEATURES THAT PROTECT A MULTITUDE OF OPERATING SYSTEMS AND APPLICATIONS**

Our solution includes some of the most innovative features available. All of these features are included with every account no matter how small or large. LokkBox OBM is compatible with Microsoft Windows 2000/XP/2003/Vista/2008, Mac OS X 10.3.4 or higher, Linux 2.4 or above, Network 6.0 and 6.5, Solaris 2.x, FreeBSD, HP-UX, AIX, Microsoft Exchange Server 2000/2003/2007, Microsoft SQL Server 7.0/2000/2005, Lotus Domino/Lotus Notes 5.0 or higher, Oracle 8i or higher, MySQL 3.2.4 or above, Outlook PSTs and will back up any file, even when in use.

Compressed and encrypted data is securely transported to our storage servers using 128-bit SSL encryption and the data is automatically duplicated at our SAS 70 Type II certified data center to provide high availability.

93% of companies that lost their data center for 10 days or more due to a disaster filed for bankruptcy within one year of the disaster. 50% of businesses that found themselves without data management for this same time period filed for bankruptcy immediately.

(National Archives & Records Administration in Washington)

Companies that aren't able to resume operations within ten days (of a disaster hit) are not likely to survive.

(Strategic Research Institute)
